## Victoria Falls | Zimbabwe

### Personal Impression

I was not expecting this level of accommodation in Zimbabwe. The rooms are cottages, the picture above is the front door to your cottage. The restaurant is outstanding, the bar well stocked with a full wine cellar where you can browse and pick your wine for the evening. This bar area looks out over a waterhole and at sunset a herd of elephants paid us a visit as we sipped our wine.

The grounds are beautifully manicured green lawns with a large swimming pool. Everything here says quality; if you choose to stay here you will not be disappointed. This is a first-rate small boutique all suites property offering everything a traveler could want. It is part of the Rani Africa chain.

### Location of the Hotel

The hotel is about a 10-minute drive from Victoria Falls on the Zimbabwe side. The hotel has two Chevrolet suburban's and offers transfers to the town and a guided tour of Victoria Falls. The hotel is located in a game reserve and sits right in front of a watering hole. You will could see animals from your room and particularly from the bar area.

### Accommodations

16 suites, 10 double and 6 twin. These rooms are really air-conditioned cottages, with a full sitting room with TV, DVD player, and a balcony and a nice sized bedroom and a very lavish bathroom. Complete with a front door with a welcome mat and a wrought iron balcony overlooking the game reserve you feel like you could stay forever.

The décor is comfortable Victorian English. There is a desk with an electrical strip with built in adaptors to accommodate both American and British appliances. A TV is in the credenza. The

bedroom is decorated very tastefully in light colors and has a second TV for viewing in the bedroom. The bathroom has a really plush feel and has a large bath in the middle of the room and a large shower, two sinks and a variety of quality toiletries. It all feels very plush.

These are pictures from our actual cottage during our stay. Extremely comfortable.

Choice of accommodation. You can stay room only, room and breakfast, room with breakfast and dinner, or full room and board with breakfast, lunch, dinner, game drives, bush walks and fully inclusive. I recommend room with breakfast and dinner.

## Internet Access

WIFI available.

## Dining and Wines

We were given our menu for the night in the bar. It was a piece of parchment paper with a band made of fresh flowers. Looked more like a special invitation to an elaborate event. The menu instantly made me smile and turned out to be one of the best meals of my life.

*Starters:* Crocodile Thermidor (my husband had this it was outstanding, tasted like lobster thermidore) or Buttered Fried mushrooms; *Soup:* Butternut soup; *Main courses:* Beef Fillet served with mushroom sauce, or Pan-fried Chicken with Green Peppercorn sauce, or Grilled Ostrich Steak with gooseberry sauce, or Kingclip

Filet (fish) with lemon sauce; *Dessert:* Brandy snap basket filled with mango mousse or honey caramelized banana and vanilla bean ice cream. Something for everyone. The wines that accompanied this meal were outstanding. The dining room decor is Victorian with crisp white linens and incredible service. I wish I could have eaten here again but alas I only had one night.
