### KTN-033 KETCHIKAN DUCK TOUR

**Duration: 1.50 Hrs**   **Tour Price: \$0.00**

**Retail Price: \$99.00**

**Date: July 26, 2019 12:30 PM**

Ride an amphibious vehicle known as the "Duck" through the historical streets of Ketchikan and out into the placid harbor, while a guide entertains you with tales of the city's past.

Board the Duck right at the pier and after a safety briefing, your fully narrated Duck experience commences with a drive through the streets of Ketchikan, an area settled in 1883 around a salmon cannery. This picturesque "Salmon Capital of the World" still revolves around fishing, as you'll see at sites like the salmon ladder and spawning grounds, where thousands of salmon congregate. Of course, there's plenty more to explore during the land-based first half of this tour, including the former Red Light District along Creek Street, a curious downtown tunnel, and beautiful Whale Park, which is dominated by the Chief Kyan Totem Pole, one of more than 80 totem poles throughout the city.

Then, the scenery changes dramatically as the Duck drives down a ramp straight into the harbor and becomes a seaworthy boat. As you cruise through the Tongass Narrows, a half-mile-wide channel separating Ketchikan from Gravina Island, you'll pass fishing boats, pleasure boats and perhaps even seaplanes. You'll also notice a number of canneries along the shore, most of which is forested to the water's edge. You might also catch sight of black bears and bald eagles, which tend to gather around the salmon streams.

Finally, after approximately thirty-five minutes in the water, the Duck will drive back on to dry land and following a short safety check, make its way back to the pier where your tour concludes.

Please note: This is a seated tour and guests will remain on the Duck the entire time. While wheelchair guests and those with mobility concerns are welcome aboard the Duck, participants must be able to negotiate a 9-step ladder (each step is 6 inches high) unassisted in order to enter and exit the Duck. Wheelchairs, walkers and strollers are not permitted on the Duck and will be kept with the dock representative in a dry, secure place and returned at the end of the tour. Weather appropriate clothing; sunglasses; and flat, comfortable walking shoes are recommended. Seating is on a first-come, first-served basis.

Relive the excitement of the Alaskan gold rush by panning for gold at a re-created mining camp and riding an historical train that once carried miners to the gold fields.

After departing from the pier, you will soon arrive at the Klondike Goldfields, an attraction that re-creates the excitement of the 1890s gold rush through various exhibits with costumed characters. You will see mining tents, dog sleds and an authentic gold dredge that extracted gold from the sand and gravel.

The highlight will be learning the art of gold panning, using the "dunk, dip and shake" technique that the 1890s miners relied on. Unlike the miners however; you can work on your technique in warm-water troughs. A little gold is guaranteed in every pan full.

Then following a hearty buffet lunch with Sweet Baby Ray's country spare ribs, all prepared on a massive outdoor barbecue grill, you will head for the train depot and board the White Pass and Yukon Railway. Over the next few hours, you will ride in a vintage railway car along the narrow-gauge railroad that was painstakingly blasted out of the mountains and completed in 1900.

Now an International Historic Civil Engineering Landmark, the railway goes through tunnels, over trestles, past thundering waterfalls and up steep grades, providing spectacular views along the way. Known as Alaska's Gold Rush Train, it re-creates the past in such a way that you can imagine what it was like for the miners to travel through the rugged wilderness in the late 19th century.

Your final destination will be Fraser, British Columbia, where you will pass through Customs before returning to the pier.

Observe many of Alaska's most iconic animals by cruising the surrounding waters, visiting a center for injured birds of prey, and touring a facility for rescued bears.

After boarding a deluxe catamaran at the pier, you will spend the next three hours or so viewing the indigenous wildlife in the passages and bays near Sitka. The conditions are ideal for supporting a variety of animals, and sightings are frequent wherever you look.

You might gaze up to see bald eagles soaring overhead. Whales often breach the water's surface in a magnificent display of size and power. Sea otters, sea lions and seals typically frolic near the rocky coast. You might also scan the forest edge for brown bears and black-tailed deer. A naturalist will be on board to explain the workings of this remarkable ecosystem as your skilled Captain maneuvers the vessel to provide the best-possible views.

Following your viewing adventure at sea, you will drive to the nearby Alaska Raptor Center, where injured birds of prey receive medical treatment in hopes of releasing them back into the wild. A wildlife interpreter will guide you through the Bald Eagle Flight Building, and introduce you to some of the "raptors in residence" perched in outdoor habitats. Afterwards, you'll have some time to explore the river trail and enjoy interactive exhibits.

Your adventure continues with a narrated drive along a winding, coastal road to visit the Fortress of the Bear rescue facility at Silver Bay. Here, you can view and photograph brown bears up-close from a raised platform, and learn about an Alaskan family's dream: offering a life-saving alternative for bears caught in conflict with their human neighbors. Following your visit, you will transfer back to the pier.

Please note: This tour includes approximately 90 minutes of easy walking. There will be steps to negotiate to board and disembark the vessel and the coach. The tour is available to wheelchair guests who have a collapsible wheelchair, are able to make their own way on and off the vessel and coach, and have an able-bodied companion to assist them. Wheelchair guests must advise the Destination Services Desk on embarkation that they will be participating in this tour as arrangements must be made with the vessel operator to accommodate. Those with walking difficulties are cautioned to carefully evaluate their personal level of stamina and ability. Warm, layered clothing to include a rain-proof jacket; cap; sunglasses; and flat, comfortable walking shoes are recommended.
